After 2 years of completing NHF tuition, our tuition students move to their local area private school sponsored by NHF.

NHF sponsors any deserving and needy kids for their academic education until completion of high school

NHF College & University Students

NHF sponsors admission fees for college and university of any hardworking deserving and needy high school students and gives them the opportunity to give free tuition to street kids. NHF provides PKR1000/child tuition fee to those college/university students to help them pay their semester fee. So Rs1000/child not only support street kids education but also helps our university students complete their degree programs.

HOW DO WE WORK?

Teacher's Selection

We search and identify those university students and stay home mothers who need income to continue their further education or to support their families. The teachers are selected through a screening process run by NHF management.

Student's Selection

NHF students are identified by our teachers in their neighborhood or are referred by family, friends and people in their network.

Student's Assessment

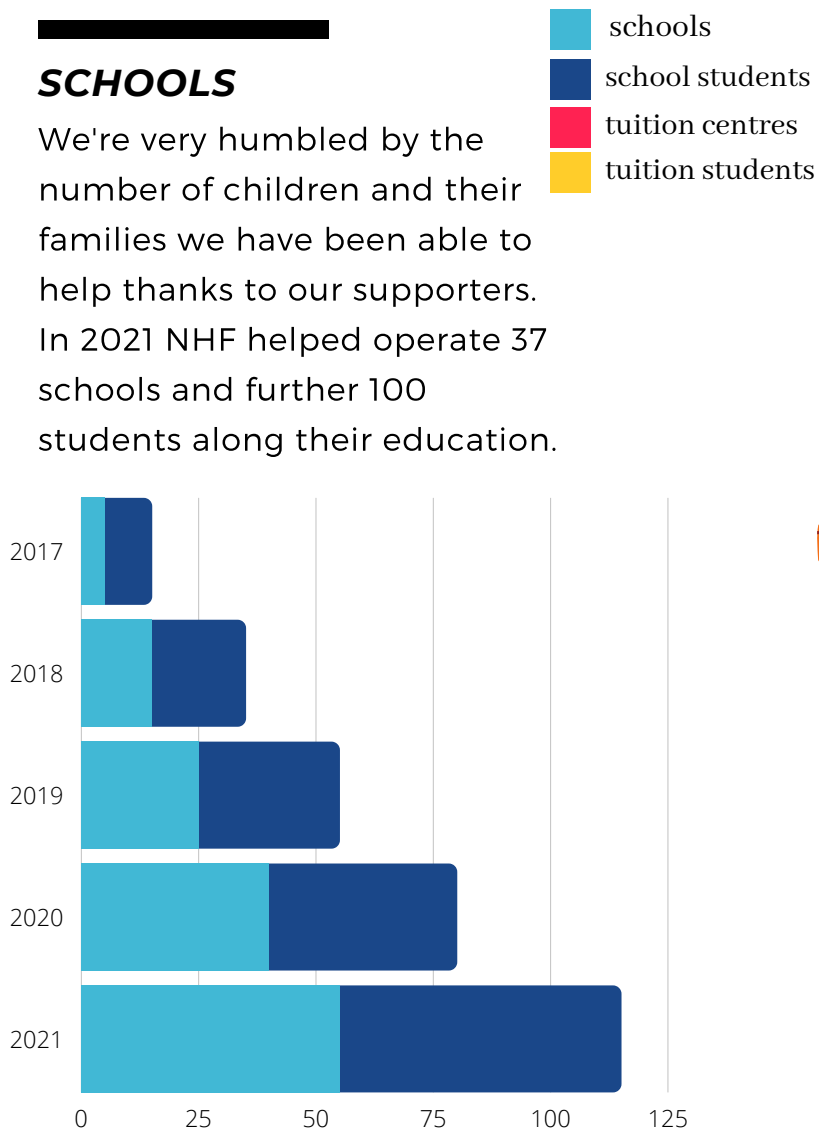

If student passes his/her academic assessment, then our students are enrolled in a local or private school otherwise proceed to our tuition centers.

Due to abundant conditions of school buildings, sporadic and permanent closure of schools, shortage of schoolteachers, distance and lack of transportation system, they have poor infrastructure due to poor governance and lack of education awareness in parents.

In this situation NHF step toward development of School system with all facilities is a blessing for these villagers and have hope of light for their future.
